

LIVE

LIVE is a 501(c)3 non-profit organization that provides education and independent third-party certification of vineyards and wineries using international standards of sustainable viticulture and enology practices in wine-grape and wine production.

LIVE aims to preserve human and natural resources in the wine industry of the Pacific Northwest. We accomplish this through internationally-recognized third-party certification of collaborative science-based winegrowing standards of Integrated Production.

We have been certifying growers in Oregon since 1999 and in Washington since 2006. We have recently expanded our geographical boundary to include all of the Pacific Northwest, including British Columbia and Idaho.

We are proudly partnered with **Salmon-Safe** to address watershed impacts from not only the vineyards and wineries of our members, but also the other areas on their farms.

LIVE also administers the **Carbon Reduction Challenge (CRC)**, a certification aimed at helping wineries to achieve energy efficiencies and addressing greenhouse gas emissions in the northwest wine industry.
